CHANGES in the professional and personal aspects of our lives are a daily requirement for health care professionals. The ability to adjust to CHANGES in work schedules, training and licensing requirements, patient care procedures, as well as your approach to each patient or situation is why the people in emergency services are special. The CHANGES Conference is designed to help the special people involved in emergency medical services keep up with the professional CHANGES as well as for personal growth and enjoyment. CHANGES provides a forum for discussion of issues surrounding health care delivery in rural and metropolitan settings, insight into techniques for the preservation of health care providers, updated information concerning patient care techniques, and of course, an atmosphere to relax and enjoy the special spring flavor of Augusta. The topics and speakers for the seminar are selected for their abilities to provide current input concerning the varied aspects of emergency services. The program is designed to meet the needs of EMTs, Paramedics, Nurses, Physicians and Public Health Professionals. Plan to attend CHANGES in order to meet YOUR continuing education & relaxation needs.

TUESDAY, MARCH 30, 2010 2010 CHANGES CHALLENGE COMPETITION
